

Have You Had Enough Of Skyrocketing Gas Prices?

Extreme Research is proud to announce the newest technology in the automotive world, **Enviro-Max Plus**. A revolutionary fuel catalyst endorsed by racing legend Johnny Rutherford, winner of the "Indianapolis 500" three times!

Enviro-Max Plus is easy to use, just use the handy bottle to add 1 oz. of **Enviro-Max Plus** to every 10 gallons of gas in your engine.

Enviro-Max Plus works in all Gas Engines, Diesel Engines, Motorcycles, Boats, RV's, Tractors, Lawn Mowers, Generators, etc! **Enviro-Max Plus** allows your engine to run cooler. It will reduce harmful black carbon residue, thus reducing costly maintenance, such as tune-ups and oil changes. It supercharges your gas. It increases fuel economy and horsepower. It will increase the life of your engine without ever doing any harm.

Documented Results of Enviro-Max Plus

1. 10% - 60% increase in gas mileage (miles per gallon).
2. For every \$1.00 you spend on Enviro-Max Plus, SAVE up to \$3.00 in Fuel Costs.
3. Additionally, SAVE on future engine repairs and/or tune-ups by reducing engine wear and tear by 50% or more.
4. Increases Horsepower & Performance.
5. Up to 20% boost in power for Diesel Engines.
6. Displaces engine water, helps prevent fuel line freeze up and fuel "gelling".
7. Up to 80% reduction in Emission of Pollutants through Exhaust.
8. Extends the life of your car.
9. Enviro-Max Plus will not harm your engine.

ENVIRO-MAX PLUS

Frequently Asked Question's

Q: What Is A Catalyst?

A. A catalyst is a substance that either accelerates or retards a chemical reaction, but one which in and of itself undergoes no permanent change.

Q: How Does Enviro-Max Plus (EMP) Work?

A. When EMP is incorporated into a fuel mixture; it enables combustion to occur at lower temperatures, resulting in a more complete burn of all types of fuel. When fuel burns better, the result is reduced emissions and increased horsepower. This improved burning of your fuel will prevent carbon deposit build-up in the combustion chamber of an engine, and actually facilitates the removal of existing deposits of carbon. Many people will notice their Spark Plugs will be cleaner and last longer. By producing less carbon in your engine, your oil will also stay cleaner longer. Cleaner Spark Plugs and Cleaner Oil will result in a significant reduction in tune-ups and oil changes.

Q: What type of Engines will EMP work in?

A. EMP works in all hydrocarbon engines that use Petroleum based fuels including Diesel engines in cars, trucks, and in major factories. EMP also works in RV's, Motorcycles, Boats, Tractors, Lawnmowers, Chainsaws, Generators, Snowmobiles, Snowblowers, Garden Tools, and more.

Q: Why Should I Use EMP?

A. EMP will save you money by reducing fuel consumption and engine maintenance in addition to the positive environmental effects. EMP will assure that your vehicle operates closer to peak performance levels. EMP can also help reduce our dependence on foreign oil because of its unique ability to improve mileage. The world is dependent upon oil for energy. Transportation fuels alone account for approximately 48% of all oil consumption (U.S. Department of Energy). We don't have to look any further than the cost of gas to see that we have a growing problem. A 2% per year reduction in U.S. dependence on foreign oil over a period of 3 to 4 years would translate into a reduction of the importing of oil in the range of 600 billion dollars.

Q: How Often Should I Use EMP?

A. One ounce of EMP should be added to each five gallons of fuel until decarbonization has occurred... i.e. your engine is clean. Decarbonization and cylinder wall lubrication is normally accomplished by the time you use 2 bottles of EMP. The recommended maintenance application then becomes one ounce to ten gallons of fuel. Your savings increases significantly when you reach maintenance dosage because you are using ½ the amount of EMP to treat the same amount of fuel.

Q: What Advantages Does EMP Have When Used With Alternative Fuels Such As Biodiesel?

A. Tests have demonstrated superior results when EMP is used with alternative fuels such as Diesel Fuel. EMP will reduce exhaust emissions, save fuel, reduce carbon build-up, increases lubricity, lower NOx (Nitrous Oxide pollutant), and thereby increase engine efficiency. Unlike some alternative fuels, EMP can also help a vehicle start more easily in cold weather.

Frequently Asked Question's (page 2)

Q: Can one individual make a difference in helping to improve the air we breathe?

A. Absolutely! By using EMP on a regular basis and making sure your vehicle is well maintained, you can make a difference in improving the quality of the air we breathe. The world is beginning to experience a major health crisis due in part to exhaust and other airborne emissions created from the use of fossil fuel. In 1935 the chances of developing the most serious form of skin cancer were 1 in 1500. It is now expected to exceed 1 in 75. It is further predicted that 1.6 million new cases of cataracts and 300,000 new cases of skin cancer will occur before the year 2002 (EPA 1997). The EPA has also estimated that ozone depletion is responsible for approximately 15,000 premature deaths annually, 350,000 cases of aggravated asthma and one million cases of decreased lung function in children. Lung disease is now the #3 killer in the U.S. and more than 30 million Americans live with some type of lung dysfunction.

Q. Is EnviroMax Plus Guaranteed

A. If **EnviroMax Plus** fails to work as claimed after being used in a vehicle for 400 or more miles; you can return any unused portion for a 90% refund within 90 days of purchase. Nine plus years of testing and use has proven that **EnviroMax Plus** will not harm any internal combustion engine; in fact all testing has proved **EnviroMax Plus** will extend engine life. **EnviroMax Plus** International, Inc. guarantees the use of EnviroMax Plus to be safe for use in any internal combustion engine. If EnviroMax Plus can be shown in any type of test to have damaged any internal combustion engine, EnviroMax Plus International, Inc. will replace the damaged parts of the engine free of charge.
